JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

mention of the River *Timavus*, that Ebbs and Flows as the Sea does. Which wonderful Phænomenon is better explain'd by the Translator, than seems ever yet to have been accounted for.

Chap. 4. Treats of the antient State of the Country on this and the other side of the River *Po*.

Chap. 5. Treats of the Nature and Condition of this hidden Spring.

Chap. 6. The Progress and End of the Waters is inquired into, and a Reason is given of the use of things, which are observed in the digging of the Wells.

Chap. 7. Contains very curious Experiments about the Motions of Fluids tending highly to illustrate the Subject in Hand ; and in this he gives Proof how much those that take Pleasure in framing Hypotheses, might be assisted in making more rational Conjectures than they do, if they were well acquainted with experimental Philosophy.

Chap. 8. Contains many Remarks about the excellency and goodness of the Wells of *Modena*.

With the Book translated, are published several Observations and Experiments by the Translator, *Dr. Rob. St. Clair*, who formerly was Operator and used to try Experiments for the Honourable *Robert Boyle*, Esq.
